## DISCOVER A **PASSION**, SHAPE A **CAREER!**

Youth find a diverse scope of meaningful career opportunities across Kansas agriculture.

Agriculture is Kansas' largest industry and economic driver, contributing over \$81 billion to the state's economy. Careers in agriculture range from agriculture broadcasters to dietitians and from environmental scientists to veterinary pathologists.

The Kansas Department of Agriculture is devoted to the total support of agriculture in Kansas, including farmers, ranchers, food establishments and agribusinesses. The KDA main office is in Manhattan, just northeast of the K-State campus. KDA works in partnership with K-State on a range of activities, as the entire Kansas agriculture industry joins forces to develop a talented, accomplished workforce.

Agriculture is a broad, increasingly high-tech industry filled with a wide variety of challenging and expanding careers. The future of the nation and the world will rely upon today's young people and the educators who teach and inspire them daily.

# Welcome to K-State Agricultural Education!

Our Ag Education Program is a major with excellent employment potential that offers a broad view of agriculture. Students learn about agricultural science, animal science, horticulture, agribusiness, agricultural technology management, leadership, crops, soils, and of course, education.

This combination of courses, along with professional education and an emphasis on communication skills, prepares graduates for their careers in agriculture.

## Why K-State?

- ✓ No.1 for friendliest students
- ✓ No.1 university in Kansas
- ✓ No.1 best college campus in Kansas
- ✓ No.2 for happiest students

Konza Prairie A	<p><b>A National Dataset: Collaborating for Scholarly Impact with the Teacher Supply and Demand Study</b> <i>Michael Spiess, Daniel Foster, Amy Smith, Rebecca Lawver – spiess@csuchico.edu California State University, Chico, Penn State University, University of Minnesota, Utah State University</i></p> <p>National Agricultural Education Supply and Demand Study data was released in 2023. The discussion will demonstrate how to access this dataset and use it for collaborative research. We will explore how research topics such as alternative teacher sources, teacher diversity, retention, and attrition rates can be supported by the dataset.</p>
Konza Prairie B	<p><b>Expanding SBAE Suicide-related Research to the North Central, Northeast, and Western Regions</b> <i>Chaney Mosley – chaney.mosley@mtsu.edu, Middle Tennessee State University</i></p> <p>A multi-state team found 21% suicide contemplation rate among SBAEs in the Southern region. We will review the collaborative approach in hopes of forming intra-regional research teams for study replication.</p>
Konza Prairie C	<p><b>Exploring Montana’s Agritourism Fellows Program for Agricultural Leadership and Education</b> <i>Shannon Arnold &amp; Dustin Perry – shannon.arnold@montana.edu/dustin.perry@montana.edu, Montana State University</i></p> <p>Join our discussion to learn about the development and implementation of a two-year statewide agricultural producer leadership development program, and how agritourism is a valuable opportunity for agricultural education.</p>
