2006 Agricultural Education Research Conference Paper Selection Report

Submitted by Jacquelyn Deeds, and Kirk Swortzel, Mississippi State University, Co- Chairs

A total of 98 proposals were received for consideration for presentation at the 2006 Agricultural Education Research Conference. Reviewers were solicited from throughout the country. A total of 94 faculty members in agricultural education, Extension education, agricultural communication, leadership, and distance education were used in a "blind" review process. Each paper was evaluated by three or 4 members of the review team. Papers were selected using z-scores. Forty-eight papers were selected for presentation (49% acceptance rate).

Our thanks to the following individuals who graciously (some grudgingly) consented to review papers.
