

CALL FOR PAPERS
2010 AAAE SOUTHERN REGION CONFERENCE
 Orlando, Florida

In conjunction with Southern Association of Agricultural Scientists (SAAS) Meeting
 February 6-9, 2010

Manuscript Submission Format

- Prepare manuscript in *MS Word* format.
- Use Times Roman or Times New Roman 12-point font.
- Set all margins at one inch.
- So that manuscripts can be blind-reviewed, **DO NOT** put your name or other identifying information on/in the manuscript.
 *For example, instead of your university's name use ["university"].
- Single-space manuscript; but double-space between paragraphs, headings and text, tables and text, etc.
- Center the bolded title of manuscript at top of the first page; capitalize only first letters of words in the title.
- Type the abstract (not to exceed 200 words) in italics immediately after title of manuscript.
- Start the body of manuscript immediately following the abstract (with bolded, centered heading as suggested below).
- Suggested manuscript section headings: Introduction, Theoretical/Conceptual Framework; Purpose and Hypotheses, Objectives, and/or Research Questions; Methods/Procedures; Findings/Results; Conclusions, Recommendations, Discussion/Implications; and References (or another appropriate format for historical, philosophical, or qualitative/interpretive research).
- Use "Table" function command to prepare tables rather than tabs and spaces.
- Place Tables/Figures within body of the paper "shortly" after their first mention in text.
- The manuscript should be no more than 12 pages in length, including all tables/figures **but excluding references**.
- Use "insert, page numbers" command of MS Word to number all manuscript pages, including the first page; center number at the bottom of each page. Do not use other footers, headers, or footnotes.
- Follow manuscript style guidelines as specified by the *Publication Manual of the American Psychological Association* (5th ed.), except as modified above. Per the manual, italicize the names of journals, statistical symbols, titles of tables, etc.; do not use the underline feature in above areas. Turn off all hyperlinks of URL references.
